We are all preprogrammed with the ability to connect with the Divine Creator through our intuition/psychic mind. We are 'made' of Source/Universal energy and as such, our minds exist within the mind of Source. Our psychic skills are a built-in mechanism that help us connect with the wisdom of the Universe.

Psychic abilities are not something to fear, they are natural and present within each of us. Our intuition is a gift from the Divine/Source. We can use our psychic mind to receive information from the spiritual realms in order to help us make positive life choices.

There are four types of intuition. These include claircognizance, clairvoyance, clairaudience and clairsentience. While all four aspects of the psychic mind exist within each of us, one or two tend to be dominant. All four aspects of intuition can be developed and strengthened with practice.

1. Step 1

Claircognizance - To Know

Claircognizance. This intuitive aspect is associated with the crown chakra*. This psychic skill is characterized by 'knowing' things. You don't know how you know some things, you just do. Claircognizance is like a direct download from the higher realms to your psychic mind.

2. Step 2

Clairvoyance - To See

Clairvoyance. This type of intuition is associated with the 3rd eye (aka. brow chakra*). This psychic skill is characterized by seeing things with your mind's eye or in some cases with your physical eyes as well.

3. Step 3

Clairaudience - To Hear

Clairaudience. This intuitive skill is associated with the ear chakras* (located near your eyebrows). This aspect of the psychic mind is characterized by hearing things with your mind's ear or in some cases with your physical ears. Psychic Medium, Clairvoyant Gold Coast, Queensland

4. Step 4

Clairsentience - To Feel

Clairsentience. This type of intuition is associated with physical sensations in the body. This psychic skill often shows up in goose bumps or sensations in the area of the abdomen or heart. When a person hears information that is true or resonant for them, they will feel a physical sensation somewhere in their body.

5. Step 5

Without putting too much thought into it, answer the following question: Which type of intuition do I use most (claircognizance, clairvoyance, clairaudience, clairsentience)? The answer to this question will be your dominant intuitive type.

6. Step 6

Again without over thinking, answer this question: Which type of intuition am I most drawn to? The answer to this question will tell you which psychic mind skill is ready to be developed.
